# MedMap

Thailand's largest
MarketPlace

Hello...

We are medmap company. Our development team has completed our mobile application and website. Our project is a pharmacy marketplace that allows tourists travelling to Thailand to find and book the medicines they need. This application will be translated into English, Russian and Chinese languages, which will greatly simplify communication between foreign customers and Thai pharmacies. As a consequence, there will be an increase in website traffic, sales and brand awareness of the brands on our platform.

https://mymedsmap.com/

Projected

9,2 млн

Website traffic per month

11,6 млн

App traffic per month

11 567

Number of pharmacies

114 567

Number of goods

MedMap

based on data received from online pharmacies, it shows the availability of goods and prices for medicines in different pharmacies in the city, so that buyers can choose the most profitable option.
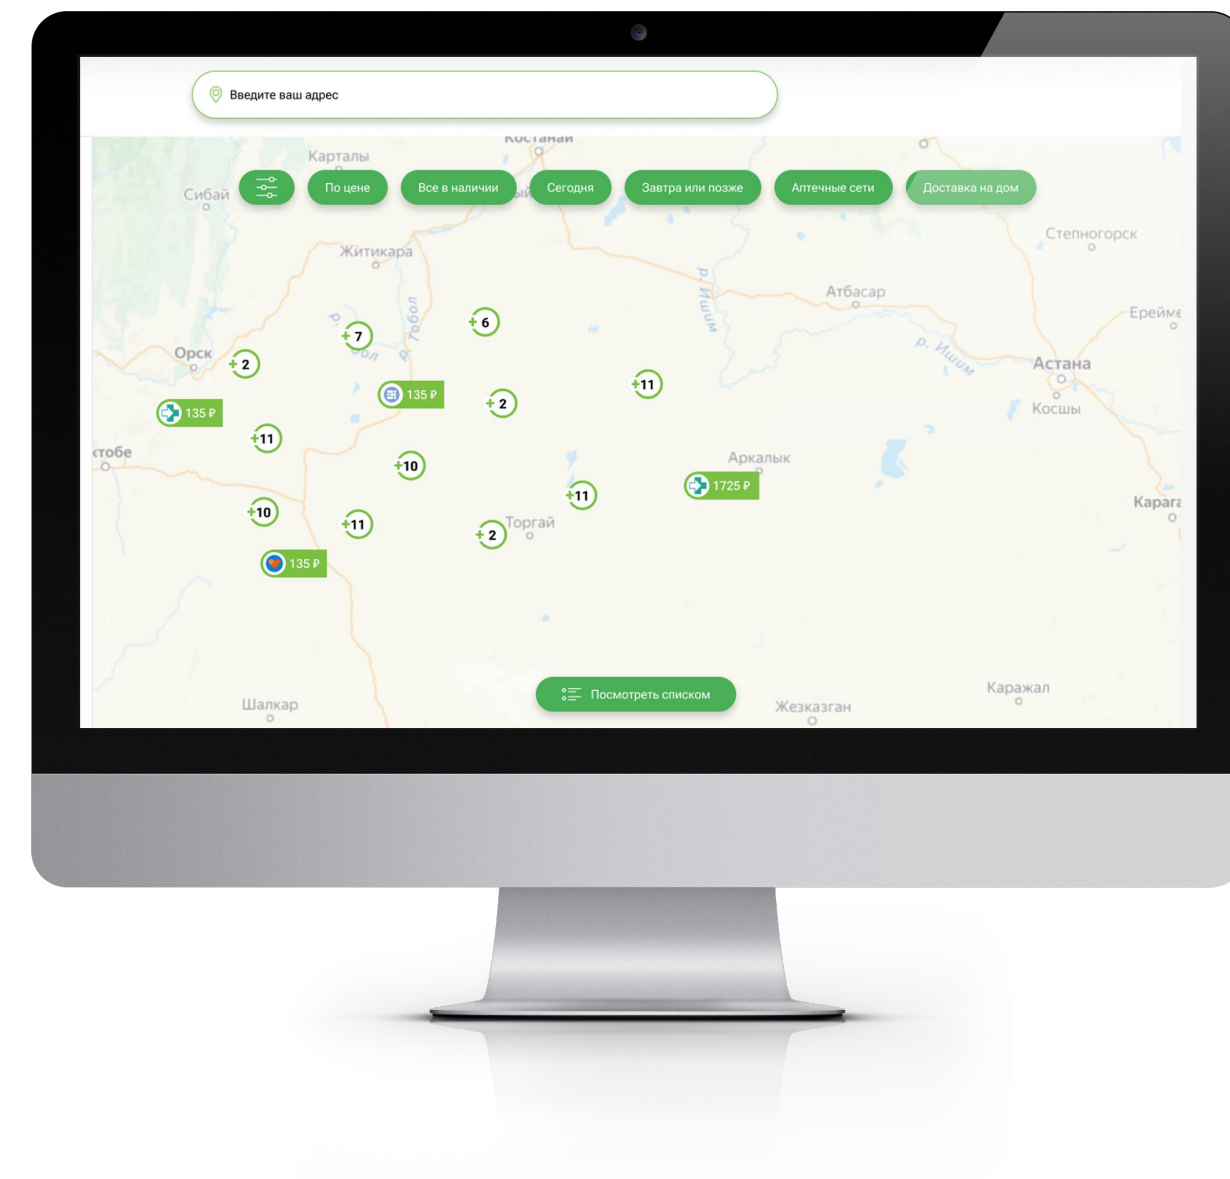

Widget
for your website

The entire ordering process takes place inside a widget on your product website without going to the medmap.com website - this guarantees maximum conversion of your traffic into orders. A personal account is provided in which you have access to sales funnel analytics in real time

Bayer shared its experience of successfully using the widget for all of the group's products

Advertising
and cooperation

There are ample opportunities on the website and mobile application of MedMap for the promotion of pharmaceutical products

To launch it, we lack a complete range of medicines found in Thai pharmacies. We would like to ask you to provide us with a list of xxx products available in Pharmacies in Thailand. This is necessary for us for informational content of the site.

10milion per month

We have a large budget for our own advertising companies！

High conversion per order

28.6% apps   **5.0%** websites

We have been successfully developing for

2 years now

Types of advertising companies
Performance
Increased drug sales

Brand Awareness
Increasing brand awareness
